

IsatPhone Pro

Handheld Inmarsat

Ask about our trade-up program for Globalstar and Iridium users.

Bluetooth is supported.

Many satellite phone users have come to expect frequent call drops and poor sound quality. The IsatPhone Pro is raising the bar! It is extremely durable and reliable and can make long duration calls with high sound quality because it uses the most advanced Inmarsat geostationary satellites. Other powerful features are Bluetooth capability, GPS location texting, contact list synchronization, SMS and email messaging, and internet-data capability.

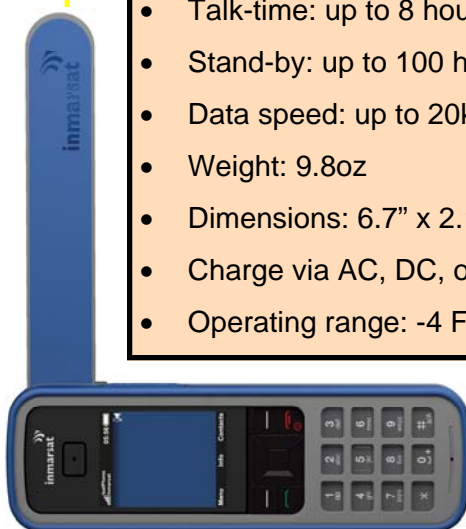

Improved startup now takes only 25-40 seconds !!

- Standard Features Include:**
- Satellite Telephony
 - Voicemail
 - Data Transmission
 - Text and Email Messaging
 - MS Outlook 2007 Contact Synchronization
 - Calendar, Alarm, & Calculator
 - Bluetooth for hands-free use

“Producing television programs featuring international hunting requires being away from home for weeks at a time, often in locations without modern conveniences, including a telephone. Whether I am in the Himalayas, the savannah, or the Rocky Mountains, my satellite phones from Outfitter Satellite allow me to handle office business and keep in touch with home, which make extended road trips tolerable.”

Steve Scott, Executive Producer
Safari Hunter's Journal & The Outdoor Guide

Coverage Map

NOTES: The area inside the gold circle has optimal coverage. Fringe coverage is available in the region outside the dotted gold line but is often limited by terrain masking of the satellite. Some plans have a 12-month initial term requirement. Prices shown do not include USF or tax. Activation fees may apply. Out-of-bundle & Basic Rates shown are for outbound voice to public switched number calls. AmosConnect email service is available on many plans for no monthly fee. GSPS is not suitable for most web browsing applications without compression software (charges apply). See service agreement for complete terms & conditions. Prices on this sheet subject to change without notice.
