Iridium Extreme™

\$1375 NEW
12-MO WARRANTY

The new Iridium Extreme model 9575 phone offers a rugged in-hand solution for voice, data, GPS, SOS, online tracking and SMS. It weighs about 8.7 oz and is 10% thinner than the Iridium 9555. Diamond-tread rubber armor makes it easy to grip and gives it a remarkable IP65 ingress protection rating against dust and water. A built-in GPS capability lets you communicate your position to others and optionally lets them track you from a mobile phone tracking portal. A shielded SOS button makes the Iridium Extreme the first handheld satellite phone compatible with the Satellite Emergency Notification Device (SEND) standard. After you program in a user-selectable mobile phone number, simply pressing the SOS button sends an emergency text or opens voice communication letting others know you are in distress. The Iridium Extreme standard battery offers 3.5 hours of talk or 30 hours standby. Kit includes: Model 9575 Iridium phone, battery, AC charger/plug kit, holster, magnetic-mount car antenna with 1.5 m cable, Adapter 9575 Power USB, Adapter 9575 Antenna Power USB, DC charger, and hands-free earpiece, USB to Mini-USB cable, Data CD, and user guide/quick start guide.

Iridium 9555

\$1095 NEW **\$699 USED**
12-MO WARRANTY 6-MO WARRANTY

The 9555 offers voice, data, and two-way SMS messaging. It weighs only 9.4 oz and has an internally stowed antenna making it sleeker than the 9505A. The 9555 incorporates an integrated speakerphone, improved texting and email capabilities, a Mini-USB data port and a redesigned and intuitive user interface. The standard battery provides up to 4 hours of talk time or 30 hours of standby on a single charge. Optional equipment includes a high capacity battery with 6.5 hours of talk time, and advanced docking stations for portable bag phone, vehicular, or marine applications. Kit includes: Iridium 9555 phone, AC charger/plug kit, holster, magnetic mount car antenna with 1.5 m cable, antenna adapter, DC charger, and hands free earpiece, USB to Mini-USB cable/Data CD, and user guide/quick start guide.

RST100 Remote Satellite Terminal by BEAM

The RST100 Remote Satellite Terminal offers a fixed-site Iridium solution that can be used with standard phone equipment in a building via an externally mounted mast antenna (included). Voice, data, and messaging services are supported. An LED display indicates the status of power, satellite signal strength, ongoing call status, and voicemail waiting. Data or internet at 2400 bps is available through an RS-232 serial port. Runs on either 11-32 VDC power or AC "wall" power using a 110/240 AC-DC supply.

RST100 Kit includes: Includes Remote Satellite Terminal, 110/240 AC-DC supply, mounting bracket, data cable, user guide, installation CD.

Options include: RST710 Intelligent Handset, mast antenna, lightning suppressor, 10-m and 20-m antenna cables.

About Outfitter Satellite

For over 10 years, Outfitter Satellite has offered our clients a wide range of satellite phones for rental or purchase. We strive to offer the lowest rates in the industry. We offer 24/7 technical support and flexible prepaid and postpaid rate plans.

GIVE YOUR IRIDIUM A U.S. PHONE NUMBER FOR ONLY \$9^{.95}/month MORE!!

All rates quoted on this page refer to Basic Rate Services as defined in the service contract. The stated Basic Rate requires that calls originate from the indicated Home Zone region unless otherwise specified in the service agreement. PROMO Prepaid plans are for new activations with the purchase of a phone. Additional activation fees and/or minimum initial term period apply to some plans. Customer pays USF/tax. Plans shown as New Activations Only are not reloadable and can be applied only to previously unused SIM cards. See service agreement for complete terms and conditions.

"Producing television programs featuring international hunting requires being away from home for weeks at a time, often in locations without modern conveniences, including a telephone. Whether I am in the Himalayas, the savannah, or the Rocky Mountains, my satellite phones from Outfitter Satellite allow me to handle office business and keep in touch with home, which make extended road trips tolerable."

Steve Scott, Executive Producer
