

IsatPhone Pro

Coming in June 2010

Trade in programs for Iridium, Globalstar, and regional IsatPhone to be announced soon!

Inmarsat will soon launch its' first global handheld satellite phone, the IsatPhone Pro. This purpose built phone has been designed to deliver the best performance available over the world's most advanced mobile satellite networks. Inmarsat has long been the undisputed leader in global satellite data utilizing the three Inmarsat-4 satellites. The IsatPhone Pro is poised to take the satellite telephone world by storm offering satellite telephony, Bluetooth for handsfree use, voicemail, SMS text, and email messaging with the same reliability of Inmarsat's BGAN products. Users of the IsatPhone Pro will also be able to look up location data and send in to others as a text or email message.

Standard Features Include:

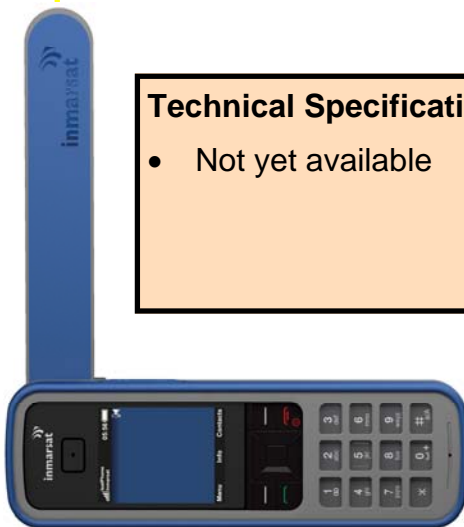

- Satellite Telephony
- Voicemail
- Text Messaging
- E-mail Access
- Bluetooth for hands-free use
- Location Data—look-up and text or email
