NOTE: The "Home Zone" includes the continental U.S. and other areas indicated on a current Globalstar USA coverage map as Home Service Area, subject to change without notice. "Basic Rate" applies to calls made from the Globalstar phone (while in the Home Zone) to destinations in the USA, Puerto Rico, or Canada, and calls received on the Globalstar phone while in the Home Zone. Additional international long-distance charges apply to calls made from the Home Zone to destinations other than the USA, Puerto Rico, or Canada. Calls made while roaming outside the Home Zone are not Basic Rate services and are billed at different rates and additional international long-distance charges apply. "Bundled Minutes" refers to Basic Rate minutes included with a plan (as shown above); bundled minutes do not apply towards roaming usage. Bundled Minutes included with Monthly Plans are valid for one month and unused minutes do not roll over to the next month. "Overage Minutes" refers to Basic Rate minutes used in excess of the Bundled Minutes included with a plan, and the rates shown for Overage Minutes do not apply to calls involving international long distance or roaming usage. Customer may be charged for busy or unanswered calls when roaming outside of the Home Zone. Customer pays airtime charges while making or receiving calls. All calls are measured and charged in one-minute increments.

Credit Requirements: Credit approval and valid U.S. credit card required. Airtime will be charged to your credit card automatically each month unless you select 30-Day Net Direct Bill Terms.

Direct Bill Plans: Credit approval is required. Payment by check drawn on a US bank, money order, wire transfer, or credit card (via the online billing system) must occur within 30 days of statement date for service continuation.

DOWNGRADING YOUR RATE PLAN: "Downgrading" your rate plan means changing to any plan with less bundled minutes during a 12-month period. There is a \$50 administrative fee to downgrade your rate plan. There is no administrative fee for upgrading your rate plan. Downgrading from plans with more than 50 bundled minutes a month causes voicemail and Express Data service to be turned off unless Customer indicates in writing that he/she is selecting them as optional services.

IMPORTANT DISCLOSURE (PLEASE READ BEFORE SIGNING THIS CONTRACT): At the current time, serious technical troubles with the Globalstar satellite network are causing degradation of its ability to provide two-way voice and data services, as discussed on <http://www.globalstar.com/en/news/pressreleases/>. Some coverage areas have significantly poorer service than others. Efforts are underway to improve service quality including the development and expected eventual deployment of a second generation satellite network, and important additional information on the status of the Globalstar network is available on www.Globalstar.com. There is no guarantee that the efforts to restore service quality will succeed or be completed. Customer acknowledges having carefully studied the information provided on the fore-mentioned web site prior to signing this contract. Customer understands and agrees that the above discount on the monthly fee is a significant discount offered because it is expected that Globalstar services will be significantly poorer quality than the performance considered normal before 2007. Customer also acknowledges that there is **no quality of service guarantee** and that service may or may not be available when the Customer attempts to use the service. Customer understands that the expected performance difficulties will continue and probably get progressively worse and may potentially become unusable or unacceptable for the Customer's particular application. Customer should expect increasingly long duration periods without signal.
