

Thuraya SO-2510

Powerful and compact, the pocket sized SO-2510 is the smallest, lightest satellite phone currently available.

The SO-2510 is sleek and modern in design. Weighing only 4.6 oz and 4.65" height, the Thuraya SO-2510 has redefined the perception of satellite handsets by being as manageable as a small cellular phone.

The Thuraya SO-2510 boasts many features historically only associated with cellular handsets. Standard features include polyphonic ring tones, a 262,000-color display, Global Positioning System (GPS) location tracking, USB port, fax and data at 9.6 kbps, SMS, and GmPRS data support. All this, plus 1.5 - 2.4 hrs of talk time or up to 40 hrs of standby time, makes the SO-2510 indispensable in the field.

The Thuraya SO-2510 Standard Kit includes an earset, battery, universal AC charger (110-220 VAC,50/60 hz), USB data cable, SkyFile Software, and user manual.

Thuraya offers satellite voice, SMS, and data services over a large region of northern, central, & western Africa, the Middle East, Asia, the Indian Subcontinent, Indonesia, and Australia.
