

Thuraya XT

The Thuraya XT satellite phone is designed for tough environments.

The Thuraya XT is the world's first IP54/IK03 certified satellite phone. Splash resistant, dust protected, and shockproof, the Thuraya XT is an ultra-rugged handset combining satellite phone functionality with the dependability of Thuraya's superior network. The Thuraya XT lets you stay close. Wherever you are within Thuraya's extensive coverage area, you're never more than a phone call away.

Rugged Design

Built to exacting standards and using the latest durable polycarbonates for the outside case, the Thuraya XT is, quite simply, the most durable satellite phone on the market. But don't take our word for it – the Thuraya XT's IP54/IK03 rating is a globally recognized standard from the International Electrotechnical Commission.

Internet-on-the-Go

The handset's GmPRS capability means you can easily send/receive emails and browse the web with your laptop or PC from anywhere, at download/upload speeds of 60/15kbps. Fax and data speeds are 9.6kbps.

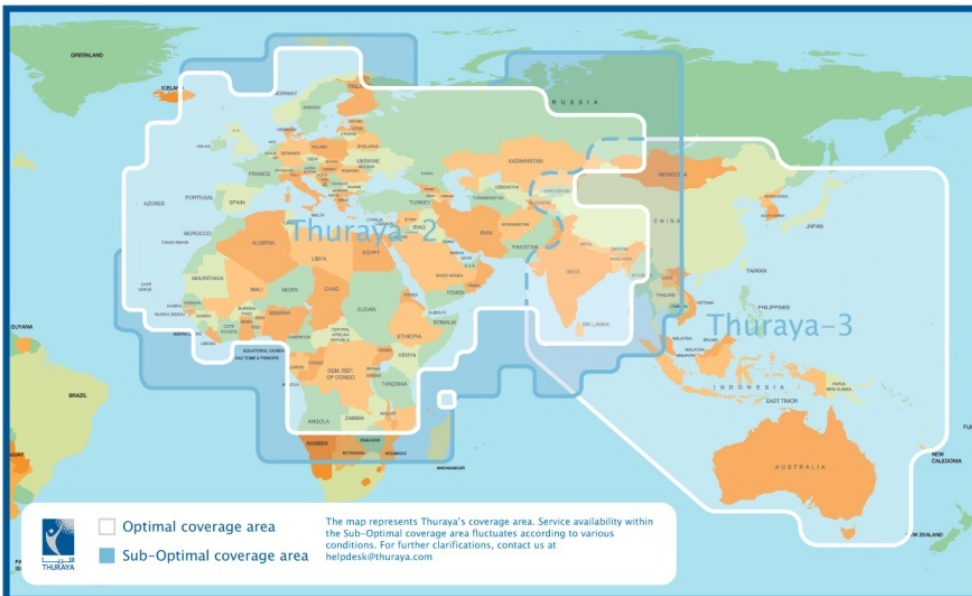

Reliability

Thuraya XT boasts the longest battery life of any satellite handset, providing up to 6 hours talk-time and up to 80 hours standby-time.

Kit includes: phone, ear piece, battery, AC charger (110/220 VAC, 50/60 Hz) with US, Europe and UK plug adapters, USB data cable, CD containing User guide and USB drivers, and manual.

Thuraya offers satellite voice, SMS, and data services over a large region of northern, central, & western Africa, the Middle East, Asia, the Indian Subcontinent, Indonesia, & Australia.
